

Project Demo Planning

Date: 03 July 2026

Team ID: _____

Project Name: Credit Card Approval Prediction

Maximum Marks: 1 Mark

Project Demo Planning

A well-structured demo plan ensures that the project is presented effectively, covering all key aspects in a clear and organized manner. This document outlines the demonstration flow, major features to be highlighted, and the estimated duration for each section.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the Credit Card Approval Prediction project, objectives, and scope.	2	Self
2	Problem Statement	Explain challenges in traditional credit card approval processes and the need for automation.	2	Self
3	Solution Overview	Describe the machine learning approach, dataset, and system architecture.	3	Self
4	Live Feature Demonstration	Demonstrate data input, prediction process, and approval/rejection results.	4	Self
5	Results & Performance	Present model accuracy, testing results, and project outcomes.	2	Self

6	Conclusion & Future Scope	Summarize achievements and discuss future enhancements.	2	Self
---	---------------------------	---	---	------

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Explain project objectives and business need
2	Solution Overview	Discuss dataset, machine learning model, and architecture
3	Live Feature Demonstration	Show applicant data entry and prediction results
4	Q&A Session	Answer evaluator questions and explain implementation details
