Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

	I am	A bank customer applying for a credit card with stable income and employment.	
	I'm trying to	Check my credit card eligibility and receive an instant approval prediction before submitting my application.	
	But	The approval process is slow, unclear, and manual. I do not know the exact reasons for rejection.	
	Because	Banks evaluate income, employment, credit history, loan balance, and other financial factors before approving applications.	
	Which makes me feel	Confused, worried about rejection, frustrated by delays, and uncertain about my eligibility.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A credit card applicant	Get my credit card approved quickly and easily	The approval process takes a long time	Manual verification and multiple document checks delay the decision	Frustrated and uncertain
PS-2	A bank credit officer	Evaluate credit card applications accurately and quickly	There are too many applications and manual checks	Customer data is large, complex, and prone to human errors	Overwhelmed and under pressure to make correct decisions
